

Early Communicators and Caregiver Group

Come join us for a 6 week course on early communication for parents/caregivers and their children ages 15-30 months. Each session will be 1 hour long and the group will be led by our licensed speech-language pathologists. Our pathologists will provide coaching and support as parents engage with their children to help foster the development of early communication skills.

The skills will be chosen by attendees and may include:

- Eye Contact
- Joint Attention/Engagement
- Play, including songs/fingerplays
- Imitation (actions in play, gross motor, gestures)
- Early Functional Communication (tips for eliciting communication)
- Gestural Communication (pointing)
- Verbal Communication
- Following Directions

Session Breakdown:

Session 1: Parent Training Session:

Introduction of Skills

Session 2: Skill 1

Session 3: Skill 2
