Tweens Exploring Empowerment Through Speech

Ages 9-14 with average receptive and expressive language skills.

What is it?

A virtual social skills program designed to help tweens build a strong foundation of social skills knowledge. The end goal is for tweens to feel confident using the skills they learned in their day to day life. Sessions will be led by a licensed speech-language pathologist and include an assessment, direct instruction, and parent/caregiver education.

Skill areas that may be addressed:

- Conversation
- Perspective Taking
- Size of the Problem
- Understanding and Regulating Emotions
- Whole Body Listening
- Nonverbal Communication
- Communication Repair Strategies
- Non-literal/Figurative Language
- Problem Solving
- Expected/Unexpected Behavior
